

## Welcome to Parkfairfax

You are now part of a unique community of 1,684 units in 132 landscaped and wooded acres. Your community began as rental units constructed to meet World War II civilian housing needs. In 1978, Parkfairfax was converted to a condominium and is now home for people of all interests, occupations, and ages. Among the amenities Parkfairfax offers are three swimming pools, two volleyball courts, two basketball courts, eight tennis courts, an exercise facility, tot lots, a party room, a car wash/maintenance yard, laundry rooms, and woodland trails.

Parkfairfax Condominium is different from other condominiums in that we share more of our public spaces, live comfortably close to each other and have not fenced our backyards into tiny isolated islands. It takes cooperation and community spirit to keep things going. We hope you will take the opportunity to get to know your neighbors and enjoy living here.
